M'ADOO CALLS ON COUNTRY TO EXCEED QUOTA

Wants 20,000,000 Subscribers to Third Liberty Loan

WOULD MEAN AN INCREASE OF TWO BILLION DOLLARS

Many Cities, Towns and Counties Going "Over the Top"

(Associated Press Telegram) Washington, April 9.—Secretary McAdoo in a statement wired from Raleigh, N. C., and given out by the treasury here today called on the country to furnish 20,000,000 subscribers to the new Liberty loan. That number of purchasers, he said, would mean a loan of four or five billion dollars instead of the three billions announced as a goal.

The statement, authorized by Secretary McAdoo from Raleigh, N. C., where he spoke today said:

"Let us not stop when we have reached our quota. Let us go forward and make the quota three or four times as great if it is possible to do it and let us at the same time make the number of subscribers to the bonds three times as great as it was before. There is no answer that will carry such discouragement to the enemies of America and of civilization as that twenty million American citizens have subscribed this billions announced as a goal.

"We can get the twenty million if we stay in the fight and make up our minds to it. If we do this it will mean that . . . we shall have not three billion but four billion of the billion to help our gallant men in this supreme test of all time for the liberties of the world.

Telegrams to loan headquarters here today indicated that many loan organizations in all parts of the country already have raised their quotas. From the St. Louis district came this message:

"Salesmen plunged into the work of disposing of \$75,000,000 of bonds. \$5,000,000 of a little more than \$20,000,000 has been lost sight of and nothing less than the sum aimed at will be discussed."

The honor roll of communities which have already subscribed quotas continued to grow today. San Francisco sent word that sixty five communities in that district claimed the honor for the flag.

New York reported the award of about 25 from Chicago came word that 24 townships in Will county, Illinois, had moved over the top and that Joliet raised its entire quota in eight hours without the assistance of a single corporation or bank. Burlington, Vermont, also was an early claimant for the flag.

Cleveland reported that citizens of 19 nationalities are making a house to house canvass in the foreign language district and are harvesting many subscriptions.

(Associated Press Telegram) Washington, April 9.—Five billion dollars is the unofficial goal toward which Liberty loan organizations all over the country are working despite the \$3,000,000 minimum set by the treasury for the big war credit. This became evident today from reports from campaign committees in many cities which are anxious to reach their quotas of subscriptions within the first half of the four weeks' period and to double the last half to doubling the apportionment.

The treasury would welcome such a big oversubscription, of course, and a number of officials have expressed the opinion that the total would go far over the three-billion mark. In announcing the terms of the loan, Secretary McAdoo provided that all oversubscriptions might be accepted.

Under Secretary McAdoo's new arrangement for giving out only figures on actual subscriptions reaching federal reserve banks, will be probably three or four days yet before an adequate idea of the country's pledge can be determined.

MANY CITIES AND TOWNS RAISE QUOTA FIRST DAY

(Associated Press Telegram) Cleveland, April 9.—With the official announcement last night that \$32,000,000 had been raised during the first day of the third Liberty loan campaign in the fourth federal district and that 22 honor-flags had been awarded in Ohio, comes encouraging reports this morning from throughout the fourth district.

Among sections of reports was one that Wayne county has obtained \$427,300 of its quota of \$653,550, of which Wooster has raised \$301,000, and another that Mahoning county has raised 30 per cent of her quota. Bowling Green and Willard reports indicate that their quotas were exceeded several hours after the opening of the campaign, while other towns reported good starts.

Unofficial figures last night gave Cleveland's subscriptions as \$17,500,000, which is an increase of \$2,500,000 over the official figures covering the city up to 9 o'clock Saturday night.

Following is the honor-list certified by the fourth district loan committee:

Ohio—Ironton, Ross township, Wood county; Gilboa, Putnam county; Liberty Center, Henry county; Washington township, Henry county; Ashland county; Springboro; Clear Creek township, Warren coun-

ty; Gambler, Knox county; North Fairfield; Huron county; Wooster; Deerfield township, Warren county; Mason, Wayne county; Lawrence county; McArthur; Hebron; Western township; Wood county; Bowling Green; Madison township, Sandusky county; DeGraffe, Logan county; Fayette county, Catawba township, Ottawa county.

Kentucky—Walton and Boone county.

DAYTON IS HUSTLING. (Associated Press Telegram) Dayton, O., April 9.—Dayton Liberty bond salesmen went about their task today with the \$2,000,000-mark in sight, and it was expected by tonight this would be passed. The county's quota is \$3,500,000, and it is proposed now to raise \$5,000,000 for Montgomery county.

NOW OVER \$5,000,000. (Associated Press Telegram) Cincinnati, April 9.—Energetic workers were urged to further great efforts today by the 9 a. m. announcement from Liberty loan headquarters that the subscriptions in this county for the third Liberty loan had been "swelled" to more than \$5,000,000 over night. This is a million and a half more than was announced at 1 p. m. yesterday. Hamilton county's quota is \$20,974,800.

CHARGED WITH COMPLICITY IN CAR ROBBERIES

(Associated Press Telegram) Toledo, April 9.—Accused of complicity in robberies of freight cars in interstate transit, five men were today lodged in jail here by federal authorities. They are: Frank Weiler, grocer; George Leighton, bicycle dealer; Gus Stager, pool room proprietor; John Charles Schellman; and Russell Piza, an Italian.

Railroad detectives and federal officers alleged that the robberies of cars in Toledo and vicinity have cost the railroads \$200,000 within a few months.

The arrests were made as the result of an alleged confession by a man who gives his name as James J. Corbett. He had previously been arrested.

LONG RANGE GUN IS LOCATED BY FRENCH ARMIES

(Associated Press Telegram) Paris, April 9.—French aviators have discovered the location of the big gun with which the Germans have been bombarding Paris at long range and the continual bombardment of the spot by the French artillery and bombing by the airmen have made the handling of the piece difficult. This explains the intermittent fire of the long range weapon.

The piece is mounted at Crepy-en-Laonnois, near the road from La Fere to Laon.

GUN BATTLE WITH CLEVELAND YEGGS

(Associated Press Telegram) Cleveland, April 9.—A gun battle between six officers and four men in the Nickel Plate railroad yards early this morning resulted in the arrest of three men in what the police believe to be one of the most daring thefts attempted in the city for years. Although more than a score of shots were fired by the officers no one was injured. Early today an auto truck entered the yards and four men got out of it. For more than a half hour they broke locks on freight cars and removed valuable contents which they loaded on the motor truck. While the loot was being loaded the officers remained hidden. Just as the men were about to drive off the officers swooped down on them and started shooting. One of the men escaped.

33 OHIO COUNTIES HAVE EXCEEDED THEIR QUOTA

(Associated Press Telegram) Columbus, April 9.—Thirty-three of the 88 counties of Ohio have exceeded their war savings stamp quotas for the week just ended, it was announced today. The Ohio war savings committee issued a statement declaring that April sales will be record breaking and predicts that the campaign will be a stimulant for the Liberty loan campaign.

Counties that exceeded their war savings stamp quotas in the past week are: Licking, Hardin, Warren, Knox, Morrow, Stark, Richland, Scioto, Columbus, Ashland, Clark, Logan, Marion, Ross, Muskingum, Pickaway, Madison, Hancock, Gallia, Geauga, Butler, Crawford, Vinton, Washington, Miami, Fayette, Brown, Shelby, Champaign, Darke, Perry, Preble and Morgan.

Fourteen of these counties more than doubled their week's quota. Ashland, assessed for \$9350, raised \$34,441. Logan and Champaign each more than trebled their quotas. Logan subscribing \$36,237 with a quota of only \$10,140.

ARM GERMAN PRISONERS.

(Associated Press Telegram) London, April 9.—While the Russian Bolshevik authorities deny it, says a dispatch from Harbin by way of Tokyo to the Daily Mail, there are 50,000 armed German prisoners mobilized at Tomsk, Siberia, and destined for the far east.

GERMAN GUNS VERY ACTIVE EARLY TODAY

Kept Up Constant Shelling Along Portion of British Front

WEATHER UNFAVORABLE FOR CONTEMPLATED BIG ATTACK

British and French Holding Firm, Enemy Making Little Progress

(Associated Press Telegram) London, April 9.—The German artillery developed great activity early this morning on the British front on the line from La Bassée canal to south of Arras, according to today's war office announcement. The statement reads:

"Early this morning the enemy's artillery developed great activity on the front extending from La Bassée canal to south of Arras. Elsewhere on the British front, except for heavy hostile shelling in the neighborhood of Villers-Bretonneux and Mericourt-L'Abbe, there was nothing special to report."

ARTILLERY DUEL CONTINUES. (Compiled from A. P. Dispatches) The Germans have encountered unfavorable weather for the big attack they apparently were contemplating against the British front and no infantry action had developed when the reports were dispatched from headquarters this forenoon. Neither was there any movement of the infantry along the French front, probably for the same reason.

The violent artillery battle, however, is being continued in many sectors on both fronts, notably in the case of the British along the line of approximately 15 miles from La Bassée canal to above Arras, just to the north of the present battle area. It was reported yesterday to be under a heavy bombardment with German gas-shells and the enemy has continued his pounding of the area, presumably with high explosives.

The British line on this front has not moved since the summer of 1916 and there has been little important fighting along this front. The Ypres and Arras battle of last year leaving it untouched on either the north or the south.

Although the Germans may be contemplating an attack here with the object of dislocating the northern front, the probabilities seem that the bombardment is more of a demonstration than anything else, with the object of distracting British reserves and conceivably drawing reserves from behind the more important front to the south.

In the Somme region the Germans are heavily shelling the British line directly east of Amiens, on the seven-mile front, north of Villers-Bretonneux to Mericourt-L'Abbe.

The French artillery battles in the Montdidier salient and eastward to Noyon. These struggles of the big guns were carried over from yesterday when the increased activity began to develop.

The French apparently are completing their withdrawal south of the Oise, to the west of Laon, where they have made their line for strategic reasons conform in general to the Ailette river valley, linking it up with the old line southeast of Coucy-le-Chateau. The Germans who advanced as the French operation was in progress here were kept constantly covered by the French artillery and sustained heavy losses.

In preparation for another heavy infantry attack against the allied lines in Picardy in an attempt to reach Amiens, the German guns of all calibers are roaring in thunderous tones along a front of more than 100 miles from north of Arras to north of Soissons. The entire countryside is said to be rocking from the heavy detonations, but no infantry action has yet developed.

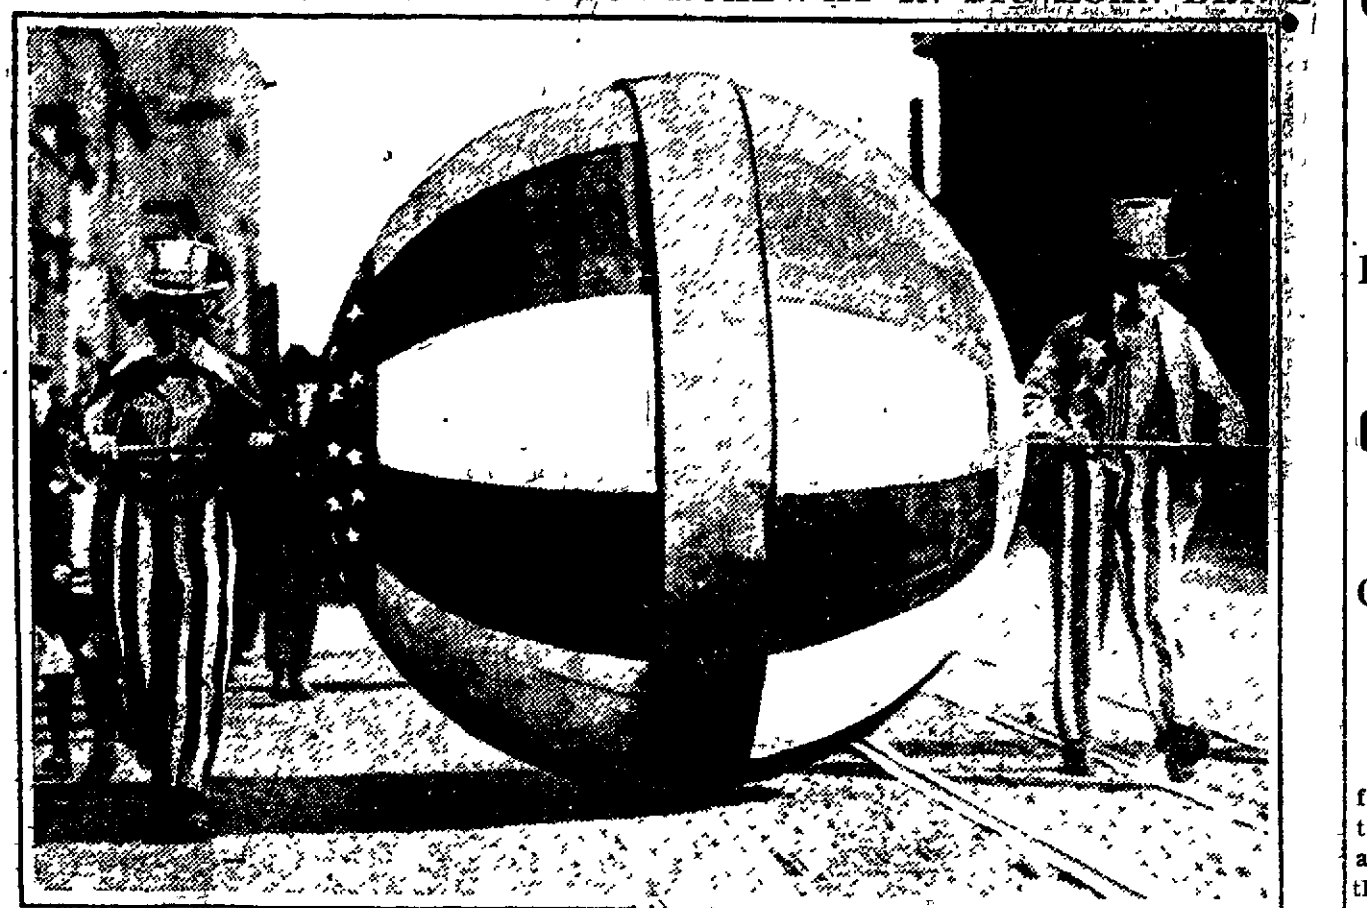

Especially severe has been the German fire around Bucquoy, north of Albert; south of the Somme and between Montdidier and Noyon. Last week the Germans failed in mass attacks to penetrate the British and French defenses north and south of the sectors directly east of Amiens and thus extend the apex of their wedge. The tremendous bombardment now going on undoubtedly is the forerunner of heavier attacks, probably all along the line from Arras to Noyon.

Bucquoy, which is south of Arras, is on the northern end of the sector which the British defended so brilliantly last week. The British here and both to the north and south hold strong hill positions from which their artillery and machine guns command all approaches. The Germans must widen the head of their wedge along the Somme and it is believed they again will attempt to do it by attacks in the Bucquoy area.

Below Montdidier the German line bends. Here also the French have held the Germans for nearly 10 days despite severe attacks. To extend the battlefront on the south the attacking front probably would include the line eastward from Montdidier to Noyon.

Along the Ancre, Somme, Luce and Avre rivers where the Germans made strong and fruitless attacks during the past 10 days there has been no (Continued on Page 9, Col. 4.)

LIBERTY BOND BUYERS HELP ROLL LIBERTY BALL FROM BUFFALO TO BROADWAY IN BIG LOAN DRIVE

"Keep the ball rolling" cry Uncle Sam and twin. Starting on Saturday, April 6, this big Liberty push ball is being rolled from Buffalo, N. Y., to New York city, a distance of 478 miles, and Liberty loan buyers along the way will do most all of the rolling. Uncle Sam, who seems to have acquired a twin for the time being, will direct the rolling of the ball and he—or they—expect to reach Broadway on May 4th, the last day of the drive.

NOTICE TO ORGANIZED LABOR

Organized labor of the city has been invited to participate in the parade to be held Wednesday afternoon by Mr. Walter C. Metz, chairman of the Liberty Loan campaign. I especially solicit all organized laborers who are not employed to accept the invitation and participate in the parade either as an organization or as individuals as you may desire.

W. M. MORGAN, President Newark Trades and Labor Assembly.

ALL ARRANGEMENTS COMPLETED FOR THE OPENING OF THE LIBERTY LOAN CAMPAIGN

FORMATION OF PARADE.

- Auto carrying out of town speakers also Messrs. Metz, E. C. Wright and Moninger.
- Squad of city police.
- Old Guard—escort to government band.
- Soldiers from Camp Sherman.
- Boy Scouts.
- Uniformed organizations, such as K. of P., M. W. of A., Knights Templars, Knights of St. John, etc.
- Township captains and chairmen War Work committee.
- All secret organizations not in uniform such as Masons, Eagles, Moose, Elks, K. of C., Rotary.
- Club, labor organizations and any other organized bodies not mentioned.
- Public school children.

Plans are fast being completed for the big demonstration tomorrow for the opening of the Liberty Loan campaign which is to put Newark and Licking county "over the top" in the big drive.

From 8:30 o'clock Wednesday morning, when the naval training station band of sixty pieces under the leadership of Leader F. G. Schoen, arrives in the city over the E. and O. railroad until after the big meeting in the Auditorium theater in the afternoon, everything possible to boom the sale of the bonds will be done.

A mammoth parade has been arranged which will start at 12:45 o'clock. In the parade will be the big naval band, the 200 soldiers, mostly Newark and Licking county men, from battery B, 324th H. F. A. at Camp Sherman, all uniformed organizations in the city, large marching bodies of all fraternal bodies, city officials and police force, machines with the speakers of the afternoon. The Red Cross and other war workers organizations will attend in bodies, and the school children have also been asked to participate.

The entire county has been urged to attend the demonstration and help in making the celebration one tremendous display of patriotism and loyalty. In many other cities the entire quota has been disposed of in one day, recent battles causing an impetus in the sale, which is brought about by a greater realization of the necessity of doing now what is to be done.

The afternoon has been proclaimed a half holiday and the postoffice will be closed from noon and the half holiday regulations will be observed. The A. H. Heisey company closes its factory at noon, and the B. and O. will give any of its men who desire the afternoon off the opportunity to leave. The American Bottle company will not close, but as three shifts work many of its employees will participate in the celebration.

Two hundred Denison university cadets under command of Prof. W. J. Livingston will also be a feature of the parade.

Arrangements have been made whereby the stores and smaller industries of the city will all close during the afternoon hours, and hundreds of representatives from various parts of the county will be in the city.

The Auditorium meeting will probably begin at 1:30 o'clock, the out of town speakers being John Burke, U. S. treasurer, Miss Linna Bressette, of the Kansas Industrial Commission, Julian H. Brian, Princeton student, returned but recently from the front, and Rev. L. P. Franklin. Rev. Father B. M. O'Boyle will deliver the invocation and Rev. L. C. Sparks, the benediction. Occupying the stage with the band will be the speakers, the ministers, members of the war work council and the Liberty Loan committee.

Those in charge of the parade will be Grand Marshal Capt. W. C. Miller and W. M. Morgan and T. J. Apple-

CONG. ASHBROOK AIDS IN GETTING BATTERY B HERE

There was sadness in the hearts of the committee in charge of the Liberty loan demonstration tomorrow, when word was received that it would be impossible for battery B, 324th H. F. A. to participate in the demonstration as they were to go on the artillery range.

However everybody got busy and at noon Chairman Walter Metz received the following message from Congressman William A. Ashbrook at Washington: "Adjutant General McCann has just wired General Glenn to give battery B, 324th H. F. A. a furlough of 24 hours to attend the Liberty loan demonstration at Newark tomorrow. Get in touch with General Glenn at once. Hope Licking county will go way over the top. Have just wired Citizens Bank of Johnstown to put me down for \$5000 more Liberty bonds and more if needed."

A statement attributed to George Creel, chairman of the committee on public information that he would be "glad to see his dying day" that this country was unprepared for war, was attacked during the debate on the Penrose amendment.

"What do you think of an official who would make such a statement?" Senator Sherman asked, addressing Senator Penrose.

"It betrays such a lack of good common sense that it is worthy of nothing but contempt," Senator Penrose replied.

The statement was attributed to Creel at a meeting of the National Conference of American Lecturers here yesterday.

"If an humble citizen can be prosecuted for indiscreet utterances, why should we not have the departments purged of persons who make disloyal remarks?" asked Senator Penrose.

Later the amendment was withdrawn temporarily, and Senator Penrose announced he would reintroduce it later today.

Senator Johnson of California also referred to Creel's speech, characterizing it as a "very remarkable utterance of a duly constituted authority of the United States," which made "one feel that he is not fit to engage in our prosecution of the war at this time."

SECRET AGENT AT AUSTRIAN EMBASSY IS NOW ARRESTED

(Associated Press Telegram) Salt Lake City, Utah, April 9.—Carl von Haagsmar, former secret agent on the Pacific coast of the Austro-Hungarian embassy at Washington, better known in the west as Chauncey Hallander, an expert telegraph operator, is held here today for the department of justice, having been brought from Prescott, Ariz., by the United States marshal.

It is alleged Haagsmar attempted to reach Mexico where it is said that he was making arrangements to establish a radio station through which to furnish secret German agents with information of military movements in the United States.

RUSSIA MAY DECLARE WAR ON JAPANESE

(Associated Press Telegram) Moscow, Monday, April 8.—Nikolai Lenin, the Bolshevik premier, in a speech here today said that possibly Russia would have to declare war on Japan in connection with the landing of Japanese troops at Vladivostok.

At the same convention the German-American Alliance sent a message expressing cordiality and good will of the members to the German emperor, Sperry said.

GREENE TO RECEIVE LOAN. Washington, April 9.—Greece will receive a loan of \$44,000,000 from the United States.

PARLIAMENT MAY RAISE AGE LIMIT MILITARY SERVICE

(ASSOCIATED PRESS TELEGRAM)

London, April 9.—Parliament re-assembles today after the Easter recess with two questions of great importance upon its hands. The first is the new military service bill which raises the age limit eight years and makes those born after a fixed date in the spring of 1867 liable to bear arms. The second is another and what promises to be a strong attempt to deal with the ancient and always contentious problem of government for Ireland. Both these issues have been thrust upon the cabinet during the brief recess, the first by the desperate German attacks in France, which demand all the men the allies can muster as quickly as they can be put in the field, and the second by the conclusion of the Irish convention and the rendering of its report which Premier Lloyd George promised would be followed by legislation.

The deepest attention is commanded by the conscription bill because it vitally affects the interests and destinies of hundreds of thousands of men and families in that portion of the United Kingdom east of the Irish sea. Premier Lloyd George will make the opening speech and will expound the military situation which confronts the nation. He will create the atmosphere, as one writer phrases it, and it is anticipated that he will make one of those stirring explications for which he has a special gift. Sir Auckland Geddes, director of recruiting, will outline the details of the manpower bill.

The country appears to be unusually united in its willingness to accept the recruiting measure which goes further than the most radical advocates of conscription talked of during the early stages of the war. And this is with the full realization that the extension of the age limit of fifty will bring hardships and often financial wreck to many small business men and families, besides hitting larger firms whose work is being carried on mostly by men over forty, with youths and with women.

Often questions will be asked about the present position of the Versailles war council. General Sir Henry Rawlinson, who was the British representative on the council was given the command of the fifth army, against which the Germans made their principal gains recently in place of General Gough who commanded it in the first days of the battle. No announcement of Rawlinson's successor has been made. This gives rise to the belief that General Foch since his appointment as commander-in-chief on the western front has superseded the Versailles council in having the direction of military operations.

The Irish legislation is a matter for the future. The cabinet program before the recess has assigned April 16 for the introduction of the budget and that action likely will follow discussion of the military act.

In forecasts by several newspapers of the character of the reports of the Irish convention are true, the cabinet is not strictly pledged to take any action on the report. These newspapers say that the report does not consist of recommendations for government in Ireland, but is merely a narrative of the proceedings of the convention.

Premier Lloyd George urged the convention to agree upon a scheme for the foundation of a government which would go to realize the hopes of Irishmen all over the world, even if it left questions like finance until after the war. Whether the convention's report will furnish any basis for a bill and whether, if it fails to meet the premier's hopes, the cabinet will put forward some scheme of its own remains to be seen.

But Ireland may become involved in the discussion of the military bill. Gossip has it that the cabinet is considering a statement that compulsory service applies to Ireland in principle, although not hoping to enforce it now. Joseph Devlin, the Irish Nationalist leader, who arrived in London today from Ireland, will fight even that mild assertion of Irish responsibility.

Several of the morning newspapers say there is reason to believe that Premier Lloyd George intends to foreshadow in his speech today the introduction shortly of a home rule measure which would set up an Irish parliament in Dublin with due safeguards for the Protestant minority.

KIDNEY TROUBLE NOT

EASILY RECOGNIZED

Applicants for Insurance Often Rejected.

An examining physician for one of the prominent Life Insurance Companies in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

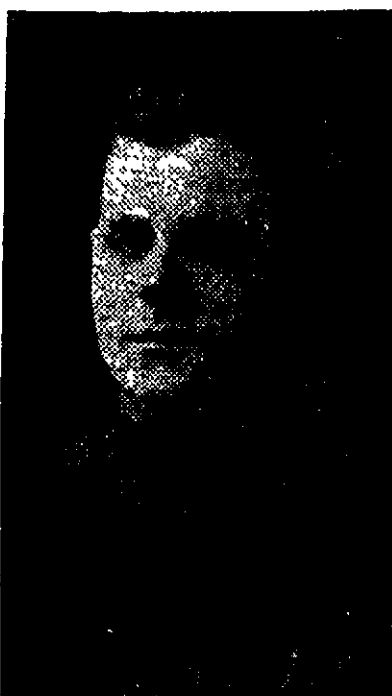

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Newark Daily Advocate.

Young Newark Aviator

SERGEANT EDWARD DUNN.

Sergeant Edward Dunn, 807 Aero squadron, McCook field, Dayton, O., an old Newark boy, who is making good in the aviation corps. He is the son of Mr. and Mrs. W. E. Dunn, 129 South Second street, and prior to his enlistment he was employed by the government in an airplane factory in Washington, D. C. He is a machinist by occupation, having learned his trade at the local B & O shops. On account of his familiarity with aeroplanes, gained in the factory in Washington, he has made rapid progress in this branch of the service since being at the training station he has been twice promoted, first to a corporalship and later to a sergeancy. He has "been up" a number of times and gives promise of making one of the government's expert airmen.

ity and a compromise on the much-discussed customs question. According to one paper the new bill also is expected to include military service and an executive responsible to the Irish parliament, but with no control over naval, army and foreign affairs.

Mr. Lloyd George said his man power proposal would involve an extreme sacrifice by part of the population of Great Britain. The Cambrai battle, he said, was a very trivial event when compared with the recent battle and until the strain had relaxed it would be difficult to find out exactly what had happened.

In the course of his speech the British premier said:

"We have now entered the most critical period of the war. There is a lull in the storm but the hurricane is not yet over. The fate of the empire, of Europe and of liberty may depend upon the success with which the last German attack is resisted and countered."

Premier Lloyd George told the house of commons today that when the battle on the Somme front commenced the total combatant strength of the German army on the west front was approximately equal to the total of the entente allies.

The Germans attacked with ninety-seven divisions (approximately 1,160,000 men) the premier told the house. They were relying on the idea that the allies had no united command and expected to divide the French and British armies.

At one time of the battle the situation was critical. The enemy broke through between the third and fifth armies. The situation was retrieved by the magnificent conduct of the troops, which retired but were not routed.

The forecast regarding probable enemy attacks made by general Sir Henry Wilson, chief of the imperial staff, was characterized by the premier as the most remarkable ever made.

The premier said the fight might continue for seven or eight months. For the British army and navy, he stated, almost six million men had been raised already.

Be on the level. Even the card-player should beware of double dealing.

GARIBALDI MEETS YANKS IN ITALY

General Garibaldi chatting with American soldier-bandsmen in Italy.

Members of the American military band that went with other allied army bands to Italy and took part in a recent Red Cross concert there were honored by a friendly chat with General Garibaldi, son of Giuseppe Garibaldi, the famous Italian patriot. Six sons of the Garibaldi family are now in the service.

SCOFFERS AND DOUBTERS

Why Let Prejudice Bind you to a Life of Rheumatic Torture.

Be fair to yourself, you sufferer from rheumatism, no matter what form. Go to T. J. Evans or any good druggist and get a package of Rheuma, the guaranteed prescription. Use the entire bottle, and if you don't think it has given you quick and sure relief, say so, and you can have your money back.

Isn't that a fair offer? Can you see any deceit or red tape about it? What chance do you take? Absolutely none.

Then get a bottle of Rheuma today. It's a reputable physician's prescription, altogether different from remedies usually prescribed, free from narcotics, and perfectly harmless. Rheuma acts on the kidneys and helps to force the uric acid from the swollen joints and other lodging places. It pleases you in a day; it makes you hopeful and happy in a week. It has released from bondage rheumatic sufferers who thought nothing would give relief. It should do as much for you—it seldom fails.

Don't miss this money-back offer. A large bottle, sufficient for two weeks' treatment, is inexpensive.—Advertisement.

SUSPEND TELEPHONE COMMUNICATION.

(ASSOCIATED PRESS TELEGRAM)

El Paso, April 9.—Telephone communication between American and Mexican border towns are to be suspended for the period of the war, it was officially announced here today. This action is voluntarily by the telephone companies and designed to prevent information regarding military movements reaching German agents in Mexico.

ANOTHER CADET KILLED.

(ASSOCIATED PRESS TELEGRAM)

This or Liberty Bonds?

Which do you prefer?

Can you for a minute contemplate the possibility of America failing in this war? It would mean that your farm and your home would feel the iron hand of the enemy with its death and destruction.

Perhaps you may think that this is not possible, that the war is so far away that whatever might happen it would never come to America.

Don't deceive yourself. In these days distance amounts to nothing and if America and her allies fail it is just as certain as day follows night that America will be invaded and her homes laid in ruins, her people murdered and the country visited with the same deadly horrors that have been spread over Belgium and Northern France.

There is one thing that you can do to prevent this.

TRUCKING BY MOTOR.

In many places business men are turning to motor trucks as a means of relieving the freight congestion on railroads. Long distances are now traversed by what are practically trains of trucks running over the highways. Trucks are hauling coal from Muskingum county to Newark, freight between Newark and Granville, Newark and Columbus.

Among the cities of Connecticut last winter, many manufacturers transported freight by motor truck. They cut the cost by arranging to get return loads for their trucks in many cases. When a truck had delivered a load, it would find notifications at the board of trade, that a number of people had freight to be carried back. By going back loaded, the cost of the transportation was cut in two.

It used to be thought that to make country life successful, trolley lines would have to be built all through the rural districts. But the cost of constructing trolley lines has greatly increased. A great many of the existing trolleys do not pay. Such lines will not be built as freely for the next 20 years.

The motor truck is, however, a good substitute. The usual method for getting country produce to market, is for each farmer to hitch up his horse, or horses, and drive or send a man to the railroad freight station. Small loads are carried, often over bad roads. One good motor truck would do the work of a number of teams, and only one man's wages would have to be paid.

A motor truck system for a district of farm country could make certain trips on certain days of the week, and cover its whole neighborhood with regularity. It would reduce the demand for farm labor, and cut the cost both of getting food to market and getting supplies to the farmer.

WELCOMING NEW CITIZENS.

Formerly naturalized citizens were railroaded through the regular red-tape of reception into citizenship. Little consequence was made of the act. It was not surprising that the new-comers took their Americanization lightly and might not value their new relation much.

Candidates for naturalization are now examined somewhat more thoroughly. It is not quite so easy to pass the bars. However, there is too little to mark the significance of the step.

The Schenectady, N. Y., board of trade recently arranged an observance to mark the giving of final naturalization papers to 146 aliens. There were patriotic addresses, and badges and small American flags were given each. The new citizens were made to feel that their new relation amounted to something.

American citizenship is a priceless gift. It should not be tossed over unthinkingly to a new-comer. He should be made to feel that he is getting something of value.

The people who thought back-yard gardening would not amount to anything, can now get three or four pecks of potatoes for the same money that brought one last year.

Probably the Kaiser will take a crack at Aime's cathedral just to show God He must believe.

SPRING GARDENING.

Home vegetable gardens are being planted prematurely in some communities, according to advices to the United States department of agriculture. From Minnesota comes information that people are buying seed and planting them when there is still probability of freezing. This haste in planting, it is believed, results from ill-considered gardening advice sent over the country by private agencies.

The department of agriculture urges that inexperienced gardeners make themselves absolutely sure of the safe-planting dates. They should consult with others more experienced; should ascertain the probable frost-free date from the nearest station of the United States weather bureau, or should write to the gardening specialists of the department of their state colleges. Latitude is not a guide as the earliest safe date for one locality might be premature or even late for another on the same parallel. Inexperienced gardeners of Newark should inquire of experienced planters before starting their spring gardens and thus save themselves loss of time, money and effort.

While we are short of labor to produce food, an army of able-bodied bell-hops hang around our hotels trying to get a living giving people services they would rather do for themselves.

PAN-GERMANISM IN AMERICA.

(Philadelphia Record.)
The Pan-German League was formed more than 25 years ago to promote Germanism, the interests of the German Empire, in all countries. After several years of effort the then president of the league said mournfully that the United States was the grave of Deutschum.

But it has not been quite that. When we consider the tenacity and resources with which the league works in every country, and the large amount of material it found ready to its hand in this country, and the careless confidence with which we are in the habit of letting everybody do anything he likes, quite indifferent to the probable results, we may well be astonished that Deutschum is not in a position to dictate to America. But it is not dead here. It has effected enough Germanization to cause a good deal of trouble, and it may cause more.

It is the Pan-German League that has got German into the schools, not for cultural purposes, but as a propaganda for the German Empire. How the German language papers in this country live is something of a mystery, especially if we accept the assurances that most of the German-American population is loyal to the government it lives under. The German language press is not. Who supports it? Probably the Pan-German League could tell.

In more than 1,000 schools in the Middle West the patriotic songs that are sung are "Deutschland über Alles" and "Die Wacht am Rhein." We usually say amiably and lazily that we don't care what the children sing; everything will come out right in this great and glorious country. So it will, after much damage has been done and the Government has been greatly hampered. These songs are sung for the express purpose of raising up German citizens in the United States, and the process is not yet interfered with.

The American national anthem was unknown in many schools in Nebraska until within the last few weeks because the Pan-German League, directed in Germany and for strictly German purposes, had American children taught German patriotic songs. Teaching German in the public schools is the smoke screen behind which Americanism has been repressed and Germanism has been thoroughly cultivated. The books used glorify Germany and its army and its Kaiser. That is what the Pan-German League got German into the schools for.

Whatever literary value German has acquired before the Hohenzollern family and its allies in the smaller German States stamped out liberalism in 1848. No German book of later date should be allowed in any public or private school in America while the war is in progress. No school supported by taxation should be allowed to teach German during the war. The entire German language press should be suppressed during the war; let them print in English. After Germany shall have been rendered harmless it will be time enough to decide how much Germanism is to be propagated in this country. But for the war and the public schools it should be suppressed. And all naturalizations of Germans since the Delbruck law of 1913 allowed a German to claim a double nationality should be canceled.

TAKE PEPTIRON NOW

Needed in the Spring by Pale, Weak, Nervous People.

Peptiron is in the form of pills, chocolate-coated, pleasant to take, easily assimilated, and is the most successful combination of iron of which its makers, C. I. Hood Co., Lowell, Mass., have any knowledge. You must have an abundance of iron in your blood if you are to be keen, quick and fit in the battle of life, overcome obstacles and know no such thing as failure. For several reasons lack of iron in the blood is more noticeable in the spring than at any other time.

Besides iron, Peptiron includes peptin, nux, celery and other tonics, nerve helps and digestives. It gives strength, color and body to the blood; reddens pale cheeks, steadies the nerves, improves the digestion, nourishes and gives stamina to the whole body.

It is the tonic spring medicine for you and for your family.

TREASURER BURKE SPEAKS IN NEWARK TOMORROW AFTERNOON

The man whose signature you can find on the treasury notes of the United States is coming to Newark tomorrow to tell the folk who go to hear him just what they ought to do with these same treasury notes. And his recommendation was that those notes be put into Liberty Bonds of the Third Loan.

The man with the wellknown signature is no less a personage than

U. S. TREASURER JOHN BURKE.

John Burke, treasurer of the United States. Mr. Burke is a former governor of North Dakota. His reputation as a lawyer was national before his name got such wide circulation on the nation's currency. He was born in Iowa in 1886. After practicing law for a number of years in Des Moines he moved to North Dakota, was soon county judge of Rolette county. Before serving three years as governor he was successfully elected to terms in the state legislature and the state senate. In 1913 he was appointed treasurer of the United States.

Readers' Viewpoint

Newark Hospital.

Editor of Advocate—May I ask you to print this communication prominently in your paper as an acknowledgement of the splendid service that is being given the public by the Newark City Hospital.

I have spent a little more than a month here, in which time I have undergone two major operations. I came to the Newark City Hospital in preference and considering the rapid progress I have made I cannot help but feel that I made a very wise choice, as I found Newark's surgical and nursing forces unexcelled.

Then, too, the personal attention given is most kind, considerate and sympathetic. The entire force seem to take delight in being of the utmost service to the sick, and easing pain whenever possible.

I do not believe the public has really come to appreciate the progress the City Hospital has made during the past three months under the joint management of Madames Billingsley and Bazler. Both of whom have given themselves wholeheartedly to this work.

With the arrival of Miss Burheard, who assumes the duties of superintendent, I speak for her hearty welcome among us and the strong and steady co-operation of every citizen in and around Newark to make the Newark City Hospital the very best in the entire country. After considering Newark's surgical, medical and nursing forces I do not consider that such a goal is too high or impossible. It will require, however, the wholehearted and sympathetic co-operation of every citizen and the discontinuance of certain small narrow-minded fault-finders.

As for myself, I shall continue to be a booster for the Newark City Hospital in the superlative degree.

Sincerely, Frank C. Miller.

GERMANS PLAN TO GAIN CONTROL OF NORTHERN RUSSIA

(Associated Press Telegram.)

MOSCOW, Monday, April 8.—German assistance of the government forces in Finland is part of a plan to gain control of northern Russia and to cut the interior of European Russia off from the Arctic and Baltic. This is the view of the Finnish situation of Oscar Tokio, former premier of Finland and a commissioner for the Finnish rebel government. Mr. Tokio has made the following statement to the Associated Press:

"Germany is rapidly investing Helsingfors and the Red Guards are there, just as in the Ukraine, and then move with the White Guards upon Russia's northern ports, thus cutting Russia off from the Arctic and Baltic. Thirty German warships, transports and supply ships, participated in the movement on Hango on April 3 and about 12,000 troops, some cavalry and motor transports were landed.

"The Germans are moving toward Helsingfors and the Red Guards are putting up a stubborn resistance with inferior forces. Abo and Bjorneborg are now under German control and White Guards under German officers and supported by German troops are moving on Tampere. The White Guards also are moving eastward at several points farther north in order to reach the Kola railway in Russia and cut off Russia's northern outlet. The Soviet at Murmansk is endeavoring to raise sufficient troops to protect the railway, but danger is imminent as great forces are required to police the long line."

M. Tokio added that the Germans had reached a complete understanding with the White Guard. Recent White Guard actions in Northern Finland, he said, had embittered the Norwegians and alarmed the Swedes who fear that the White Guards will invade their territory.

THE HEDGE OF DEATH

ACTIVE IN THE PROMOTION OF GERMAN PLANS

(Associated Press Telegram.)

Cleveland, April 9.—Documentary evidence in the possession of the American Protective League indicates that a German-American manufacturer, a pattern maker of Cleveland and Youngstown has been active many years in formulating plans to Germanize the public schools of cities in the United States. Much of the correspondence seized in the manufacturer's files is now being prepared for transmission to the Washington authorities.

One of the letters requests a German of New York to come to Youngstown, Akron, Columbus, Detroit and other middle western cities to make addresses ostensibly in behalf of destitute citizens of Germany.

"In Youngstown," this letter says, "you are assured to secure a full house for the people are very patriotic and well organized."

One document outlines a method whereby German politicians may "set the wheels in motion to delay the Wilson program." This letter speaks of night letters sent to senators and congressmen.

Another by a Cleveland teacher advocates the abolition of manual training on the ground "that it is hindering the language instruction" and refers to 300 German reading books which are donated to German classes and which "are certainly bringing good results."

Scores of other letters convinced officials that the man has been most active in a formulated plot. Some discuss ways and means of combating agitation against the teaching of German. In a letter the manufacturer signs as secretary of a Cleveland German society he points to the "hard times" the fatherland is having in the war and taking up the question of keeping German predominant in the American schools. Another is a letter written to him by a Cleveland German who states his objection to living among people who are hanging out the Stars and Stripes and who requests the manufacturer to find him home among congenial German people.

Called before federal authorities, the manufacturer admitted having contributed money to citizens of Germany and said he had no money for Liberty bonds.

SOLDIERS' LETTERS

The following letter has been received by a friend from "Bun" Ewald, one of the popular young men of this city, who enlisted last summer in the ammunition train service and is now at Camp Sheridan, Camp Sheridan, Ala.

April 5th, 1918.

Thought it might be of interest to you to hear that Newark is doing her share in running the army.

You no doubt remember Karl Kuster who resides on Commodore street, and who enlisted with myself in the motor trains, commanded by Colonel P. B. Monypeny, last July. After several months juggling we were finally landed in Montgomery and the entire train was reorganized into the 112th ammunition train. For some time Karl kept secret his ability to manage the company mess but was found out and now is mess sergeant of Co. B and is one of the most popular non-commissioned officers in camp.

Karl has proved himself a master in this line and there is not a man

ber of his company that could be induced to partake of a meal in the city. It certainly proves the old adage that a man's heart can be reached through his stomach.

My powers of illustration are far too limited to portray in mere words the good effect the change of diet has had on his company. The company as a whole has never drilled nor felt better since joining the army.

Lieut. Bregg who is in command of company B has been swamped with applications for transfers to his company since Karl has become mess

sergeant. It is a common statement in his company that he is an absolute stranger to Hoover. Also want to mention that James Alexandria Claytor who was recently transferred to company B from company F as a private, has, by his sterling qualities as a soldier and a man, been appointed duty sergeant. All the boys have playfully named him "ram-meat" because of his harsh commands on the drill field, there is not a more popular line sergeant after drill hours.

Kenneth F. Coulter, known to his many friends as "Bun," who is in Co. F, has tamed his team of horses so well that they will follow him wherever he goes. Bun says "it cost me a lot of money for apples to get my colts to do this but it is worth it and I feel that I am doing my bit." All the boys envy Bun his team and several attempts have been made to take them away from him but of no avail. He has become so accustomed to this life that he feels as much at home on the O. D. wagon as he did behind the wheel of the "Caddy."

Have been reading quite a bit of Sherman news but Sheridan has been sadly neglected and thought I would let you know that we are still among the living.

Every woman in the city of Newark is to have the opportunity to learn how to use the substitutes for wheat, fats and other foods, the conservation of which is essential to the winning of the war.

At the call of Mrs. Homer Davis, president of the Federation of Women's Clubs, a large number of the members of all the women's clubs in the city met at the chamber of commerce Monday afternoon. They were addressed by Miss James of the Piqua chamber of commerce, who told of the work that the women in that city have done along this line. Plans were formulated for the organization of the Newark War Kitchen. An instructor from the State university at Columbus will come to demonstrate to the classes and the ladies will give an exhibit of war foods in the near future. The place for the classes and exhibit has not yet been definitely arranged, but rooms will be secured in a central place in the downtown district.

The course will be open to all women in the city and there will be no charge.

Our Boys and Girls

If the busy mother will wash the baby's jackets or the sweaters in the usual way and then set them in a clean pan and put them in a warm place to dry, they will come out like new. Turn them often and shake a little as they dry, and they will be found as soft and fluffy as when purchased, and not pulled out of shape as when hung on the line to dry.

Muslin and cotton goods can be rendered almost fireproof if an ounce of alum or sal ammoniac is put into the last water in which they are rinsed or in the starch in which they are stiffened. This is a particularly wise precaution to take with the children's clothes, for then even if the clothes do manage to take fire which is at most times improbable, they will smoulder and make no flame.

For the child's birthday party bake little cakes in gem pans. When ready for the icing make a small hole in the top of each cake and slip in a tiny doll of the penny variety. Then place on the icing. The icing will hold the doll in place and each little guest will be surprised and delighted with the innovation.

Milady's Boudoir

Graciousness An Aid to Beauty.

If you have observed guests at a reception or tea, you will see that the natural tendency is to choose the most comfortable seat and stay there, giving but brief answers when asked questions, when introductions are given or an opinion is requested by a tactful hostess who strives her best to break the clam like silence. Among close friends these same women are probably very entertaining, but they certainly create a very unfavorable impression upon strangers.

If it has been your way, resolve at once to mend your ways. Make up your mind to be as attractive as you can to others. Forget yourself and think only of them. Dress in a manner that will be pleasing to the eye, arrange your hair becomingly, take plenty of outdoor exercise, keep up your vitality and, above all, be natural. Worthwhile women refuse to bother with acquaintances who try to cover their lack of good breeding with a veneer of affectation.

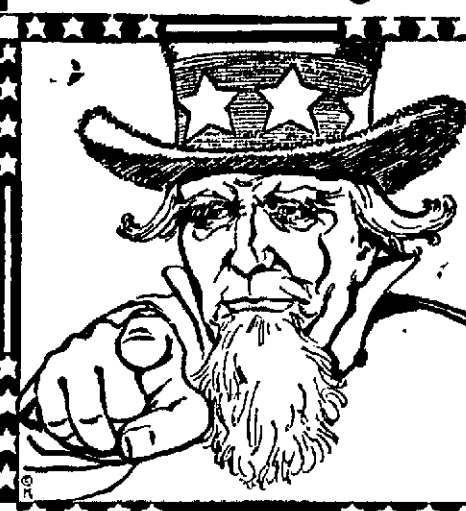

Entertain in your home, if you have nothing to offer but a cup of tea and a cracker. Your friends will come to see you with eagerness if you are gracious and charming. It is unnecessary to have a lot of expensive clothes to mingle socially. There is no excuse for a dowdily dressed woman and she will never be sought to grace any gathering. One can wear simple frocks bought at bargain sales, and if one is charming, carry them with the grace of a princess.

So, never sigh for beauty and wealth thinking that it is impossible to be popular without one or the other, for some of the most attractive women the world has ever known were homely and had scarcely a penny with which to bless themselves.

DOCTORS ADVISE SPRING TONICS

Say There Is Nothing Equals Iron and Phosphates.

Experienced doctors claim that everyone should take a good tonic in the spring, that during the cold winter months we all eat too much meat, fats, heavy foods and too little fresh vegetables, that the entire system is clogged up, over loaded and overworked, causing thin, impure watery blood and that tired, nervous feeling, pimples and bad complexion.

Honest doctors all over the land have found and are recommending and prescribing phosphates and iron as their spring tonic for the blood and nerves, they say it removes all impurities, unclogs the channels and sends the rich, red life-giving blood through the veins, renewing health, strength and nerve force as nothing else will.

If you are all in, run down, fagged out and your nerves all shot to pieces and the joy gone from life, take Phosphated Iron, the red blood and nerve builder. It will make a new man or woman of you, make you feel like doing things again, renew that youthful feeling, you can almost feel yourself coming back. Try Phosphated Iron today, it has helped thousands and will not disappoint you.

To insure physicians and their patients getting the genuine Phosphated Iron it is put up in capsules only, do not allow dealers to give you pills or tablets. Insist on capsules. Sold by Evans' Drug store and leading druggists everywhere.

RELIEVES THAT WHEEZY COLD

Proper time to check a cough is at the first symptom. Don't delay.

If you are still neglecting your cough, the sensible thing is to stop taking chances and begin taking Dr. Bell's Pine Tar Honey.

Treatment with this effective balsam remedy should give you quick relief. You will notice its soothing effect on the air passages from the first dose. As its name implies, it contains ingredients proved to allay inflammation, quiet coughing and tickling in the throat, and to loosen and expel the phlegm. Don't lose time from your work.

Still sold at 25c by all druggists.—Advertisement.

FOR ITCHING TORTURE.

Use Penetrating, Antiseptic Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skin.

Ford

The Ford Motor Company has voluntarily reduced the number of cars manufactured by them.

In order to devote the necessary factory facilities to government work only one-half the required number of Ford cars are being built and a large percentage of these are commercial.

We urge you to buy NOW while it is still possible to get a passenger car.

GUARD AGAINST COAL SHORTAGE

Newark will have another fuel shortage next winter far more serious than the one of last winter, unless there is a more general laying up of coal immediately, declared J. S. Herzog, county fuel administrator, today.

Newark people who have been accustomed to getting their fuel late in the fall don't know how to store it over summer, says the fuel administrator.

To remedy this he has issued the following instructions:

Don't put coal that is to be put in the basement bin. Coal should not be piled more than six or eight feet deep in a bin. With hard coal it makes little difference, but with soft coals the lump or nut coal should be piled together and the slack coal piled by itself.

If the coal pile is kept well ventilated or sealed up tight there will be no danger from spontaneous combustion. It is the small quantity of air admitted to coal piles packed just tight enough to prevent free escape of gases that cause trouble.

In storing coal in a basement lay a few slats on the floor so the air can get under the pile.

Keep the coal bin open all summer. Coal should not be stored in the open.

OLD GUARD TO ACT AS ESCORT TO NAVAL BAND

The famous Old Guard of this city, under command of Matthew Bausch, will meet Wednesday morning at 7:30 o'clock at the G. A. R. hall, to act as escort to the Naval Band.

The band will be escorted to the Second Presbyterian church, where it will perform. Capt. Bausch has issued orders for every member of the company to turn out in full uniform and equipment. No excuses will be accepted unless sick.

The Old Guard will also raise a large American flag over the company at 10 o'clock, after which the company will assist in the program of the afternoon.

CHARGED WITH STEALING PAINT

Dave Williams, colored, was arrested on an affidavit sworn to by the Kresge company, charging him with taking three cases of paint and two boxes of paper from the basement of the Kresge store.

This morning in police court he pleaded not guilty and waived examination. His hearing was set for Thursday afternoon at 2 o'clock.

THE MARKETS

(ASSOCIATED PRESS TELEGRAM)

New York, April 9.—The broadening of the German drive on the east front provoked moderate selling in the first half hour of today's trading. Most grades of rails and industrial yields offered less resistance to pressure. Oil was particularly heavy. Texas company looking for a rebound led the further recessions in automobile issues, declining about 1½ points with General Motors. Liberty bonds were eased slightly.

A gradual ebbing of prices later, shipments, tobacco and the usual variety of specialties followed the course set by the motor group.

Liberty 3½'s sold at 98.70 to 98.94 and first and second 4's at 95.30 to 95.10.

Chicago Grain and Provisions.
(ASSOCIATED PRESS TELEGRAM)

Chicago, April 9.—Corn displayed a continued resistance to decline today on account of the bullish effects looked for from the change of rules whereby corn will become the contract grades of corn. The commercial grades of corn will become the contract grades.

Opening prices, which varied from unchanged figures to ½¢ off with May 1.75 to 1.74½, were followed by an advance to slightly above yesterday's finish.

Prospects that oats, like corn, would soon be put on a new basis in the matter of contract grade gave some firmness to the oats market. After opening unchanged to ½¢ higher, with May 86½ to 86½, prices sagged to below the latest figures of yesterday.

Strength in the hog market was communicated to provisions. Trading, however, showed but little activity.

GEM.

Wednesday and Thursday the Gem presents Monty and Lillian Williams, motion picture artists in person. This is the first time a moving picture director ever appeared in person in this city. The Williams have been cast in W. S. Hart, Wm. Clifford and Neil Hart. They will also be remembered in God Country and the Women. Across the Great Divide. Their program consists of a scene from a picture, "The Law in the West" in which Miss Williams appeared as leading lady for W. S. Hart. Also a comedy in a picture studio and a picture program as follows.

ALHAMBRA.

Wednesday and Thursday. Alice Brady, in the role of Sybil Drew, has the unique experience of being saved from a sinful life which she

told tale, whose telling does not dull the keenness of its vital truth by its reputation.

Naturally, in the old miracle and morality plays, the characters were very symbolic. For instance, the devil was always a very important personage and one of the most thrilling scenes for these audiences of the olden days, was the acting showing the bottomless pit of hades. The various other characters largely represented the fundamental weaknesses of men and women.

The presentation of these old miracles and morality plays were a very important event. They usually took place on a market day in one of the large towns and the people came from miles around to see the play. In one instance, the presentation of these old plays recalls the modern circus, as it was quite often the custom of the play-

had never lived. Her rescuer is the handsome young doctor by the name of Ross Alger, and, although he has fallen in love with her almost at first sight, the peculiar circumstances under which he sees her time and again lead him to believe that she is a crook. It is not Sybil's fault that appearances are against her. She has been sent out into the cold, cold world by her wealthy aunt to win her spurs by earning her own living. "You are unhappy because you are a poor relation dependent upon me for a living," this aunt had said. "You are leading a life of an ordinary social butterfly with no responsibilities and nothing to arouse your ambition. Now, you must go out and earn your own living for a year or not expect to receive any of my money."

So it was that Sybil, her ambition aroused, had gone forth to make her own way for a whole year. It was not surprising that adventures should immediately come her way and startling adventures they were, too. Sybil, weathers them all and wins her spurs, not at all in the way that you would expect. On Wednesday and Thursday the Alhambra theatre will have the pleasure of showing its patrons "The Spurs of Sybil."

AUDITORIUM.

Tonight. Large crowds saw Miss Bara in "The Forbidden Path" and all were of the same opinion, "better than ever." It is seen today for the last time, together with the Bud Fisher cartoon, "The Friend Investigation," in which Mutt and Jeff are seen at their best.

"Experience."

Comparison of the modern morality plays with that medieval play shows a very decided difference. The old plays had no glitter or flimflam. They were deep, and as solemn as the destiny of man. The horizons of the old plays as eternity and their scope took in the everlasting and also brought forth as characters, the angels and saints and sinners.

The first plays were called miracle plays and for a time they had the approval of the church. Afterwards, the miracle plays were succeeded by cycle plays, known as morality plays. These old plays particularly pictured the inevitable wages of sin and they were written with sonorous rhetoric. The story of these old miracles and morality plays possess a gripping appeal of the eternal things of this transient life of ours. They had symbolism to lift them out of the monotony of an off-

ers to give a parade around the market place and even going through the streets of the city.

The characters in these plays would hardly seem vital human beings of today and the language in which they were written would be rather difficult and hard for a modern audience to follow. In one other instance, these old miracle and morality plays recall something of today, as there were also people in those long forgotten times who were just as anxious to become dramatics as you will find today. A consideration of the large number of miracles and morality plays show that there were just as few of them which were really great successes, as one finds in dramatic productions of today.

For a long time our theatres heard very little about morality plays and then Ben Greet gave a remarkable revival of "Everyman" with a most excellent cast. After a few years, "Everyman" was followed by a number of other morality plays, the most successful of which was George V. Hobart's modern morality comedy drama of today, called "Experience," which comes to the Auditorium tomorrow for a two day engagement.

While the old morality plays entered very strongly to the serious portion of mankind, the modern morality play on the contrary is a very pleasant concoction, suitable to those serious and intrepid persons. The aims of the modern morality play is the illustration of the important moments in life: its method is to entertain constantly by all the arts of the stage. One might therefore call it a sermon disguised as a dramatic spectacle warranted to keep the most flippant awake and to leave no unpleasant impressions. This method is thoroughly modern and accurately pagan, but the paragon owns a malice quite unknown to the ancient world. The modern morality play is never played without splendid scenery and a great variety of characters. All through the modern play, one finds thousands of touches illustrated of modern taste. For instance, you may present one of the old morality plays in the broad daylight, in the simplest costumes and be enabled to give a very interesting performance. "Experience," which comes to this city, shows what a remarkable hold the new morality play has on the public. It is a charming spectacle, which is thoroughly enjoyed by all classes of theatregoers. All that modern stagecraft can do to make Experience effective, has been done by the producers, William Elliott, F. Ray Comstock and Morris Gest. Its

characters are vivid human beings of today, such as everyone has met and it tells the adventures of Youth—the average young man or today—when he leaves his home and goes out into the big world, to make a name for himself in the busy maze of trade and commerce. It contains drama, music, sing-

ing, dancing, fashion, laughter, pathos, pageantry and spectacle.

"Chin Chin."

"Chin Chin," whose reputation as a famous entertainment has preceded its coming by almost two years, will be

seen at the Auditorium theatre on next Monday afternoon and evening.

By the box office returns, the most potent argument in the theatre when considering "Chin Chin" is the greatest and the best.

Certainly the most exacting and sophisticated taste will ask for little or nothing more in facile playfulness, pretty dresses, swift dances and pranks than this production has to offer.

Ivan Carlyll's score is rich with ingratiating melodies, and the various stage settings make attractive pictures.

Auditorium Notes. "Experience" to be seen at the Auditorium Wednesday and Thursday, opened at Shultz's Opera House, Zanesville to S. R. O. The papers of that city

spoke very nicely of company and production. The company will arrive in Newark early tomorrow, coming over the B. & O. railroad.

Theda Bara drew new laurels in her clever portrayal of the part of Mary Lynde in "The Forbidden Path." She is supported by a well chosen cast. The last showings are seen today. This is a William Fox Super-Standard production.

Mgr. Fenberg can be congratulated on being able to give Newark the arrival of a treat this season in playing "Chin Chin," the Charles Dillingham production with Doyle and Dixon. This is the only company on tour playing this, so Newark is sure of the No. 1 company, which this week is appearing at the Grand Opera House, Cincinnati. The company will arrive in Newark at noon Sunday, coming via B. & O. railroad.

Manager S. E. Alban has put a very attractive patriotic "trim" in the Arcade window of the Stewart Brothers & Alward Company's store. It represents the broad Atlantic, across which stretches a bridge leading from America to France. Upon the shore of the United States may be seen great stacks of money and the bridge consisting of United States bonds supported by pillars of war savings stamps. Leads to the battle front, where floats Old Glory and where may be seen a United States soldier in action. By him rests a shell and in his hands is a rifle. In the background are numerous posters advertising the Third Liberty Loan and picturing the Uncle Sam's need of money. The scheme was cleverly worked out and the window attracts the attention and favorable comment of all who pass.

**THE OLD NATIONAL
PIKE REHABILITATED**

Years ago when war was child's play in comparison to the man's job of today General Braddock realized the importance of an artery of travel through the heart of this big country of ours and set out at once to cut a road. What was once used as a bison trail and later by the Indians was the base of his operations. It was not long before the men had finished what was to be known as "Braddock's Trail."

The United Government saw the necessity of having a good, fast, and ready connection between the crowded east and the big west. The only solution was the completion of the emergency highway that had only penetrated the northwest as far as the state of Pennsylvania. The first quarter of the nineteenth century had not passed before the pike had passed the capital of our own state. In those days labor was cheap and material drew a very low premium. In a very few years one could watch the sun on his evening course light up the way for an endless string of home seekers with schooners, cows, chickens, a few pigs and a good supply of children. For several years this same procession could be seen fading out with the dusk of evening. Pure Yankee blood was flowing west through the great aorta of a nation.

Then the years were few when the roads made of steel rails forced the great pike to close its chapter in the country's history. The National road soon fell into temporary disuse and bad repair. Any one of this generation can easily remember the sad completion it turned toward the casual observer. Its pitiful appeal was heard and interpreted by the present governor of our state of Ohio. The resurrection and reconstruction can not be estimated by the average person who has not the opportunity of seeing each day now what takes its course over the old highway, bringing the wealth of a nation from the vastness of the big west back to the eastern waterfront.

Along the last few months of the year 1917 in a single day auto tags from 14 different states were observed on cars in transit. Since the spring of the present year has ushered in new necessities of freight and travel, from daylight till dark and often far into the night the old National highway is one continual procession of moving vehicles composed of passenger, freight and transit motors. Within the last thirty days no less than 1000 motor cars and trucks have used this road for transportation, and without a single exception they have been going east.

This all has a meaning. These companies in face of the congestion of the freight traffic of the railroads find it cheaper and more convenient to send their wares on their own wheels to the eastern markets. A long stretch of unbroken good roads minus the miserable little unfinished patches, the pike now has, would be a value without figures running through the heart of the nation as it does, even in the times of peace. We are in the throes of the world's most terrible war, and only at the beginning of collecting resources from an area of 3000 miles in width and attempting the stupendous task of transporting it the same distance over harried waters.

This big union of states will soon need the old pike to send tons of material to the eastern ports. If Uncle Sam would attempt to use it as it now stands, with the beast from Berlin tossing shells into Paris he would be stalled in the mud in the main streets of Hebron and Kirkersville. If a boy was to grow weary from hard travel and sleepless nights and sick of bloodshed was to nap at his post as a guard who shoot him of course. But as a state, a county or as towns if we do not hasten the repair of the ruptures in this important artery of travel we snore at our post.

**FORD PLANT ORDERED
CLOSED TO VISITORS**

Detroit, Mich., April 9.—The Ford Motor Company has closed its doors to all visitors. For a number of years the huge Highland Park plant was the mecca for all people coming to Detroit. And due to this fact it was the privilege of a Ford organization to maintain a Courtesy department, which furnished escorted guides, who were familiar with all phases of the industry, to anyone and everyone that desired to go through their immense plant. The records of the company show that people from all parts of the world visited the factory. The officials of the company expressed their regret that it was necessary to discontinue this courtesy but as it is a rigid rule from the government, it is entirely beyond the powers of the Ford Motor Company.

Uncle Jack—"What is your idea of an optimist, Tommy?" Tommy—"Oh, a fellow that can get fun out of going to school."

**COUNTRY SCHOOL CHILDREN HAVE BOUGHT
\$25,936 WORTH OF WAR SAVINGS STAMPS**

Harry Wentz, 210 Union street, is now an agent for war savings stamps. Thrift stamps are now being sold by 750 agents in Licking county.

New members of the Licking County One Thousand Dollar War Savings Society, Miss E. Pearl Keller, of Hebron; J. Fulton Van Voorhis, of Newark.

Supt. E. T. Osborn of the Hebron schools reports that 78 percent of the pupils of Hebron are buying war savings stamps and that the sales in the schools there now amount to \$2667.75 which is nearly \$500 above the year's quota. Prof. Osborn has set a new mark, \$5000 by Oct. 1st. The High school, the Eighth grade (Miss Carrie Hutzel) Sixth grade (Miss Elizabeth T. Brown), Fifth grade (Miss Jeannette Morrison) and Fourth grade were the first to reach their quota. The Sixth and Fourth grades and the Normal school (Miss Marian Mitchell, director) are now in the 100 per cent class, every student in those grades being a buyer of war stamps.

Thrift and War-Savings purchases by Licking county schools amounted to \$25,936.00 on March 29th, being a gain of \$5818.75 since March 16th. At Croton the grammar school of 23 pupils with Perry Case as teacher has purchased \$810.25 which is \$35.22 per pupil.

Hebron schools gained \$804.50 since March 16th, 78 per cent of all the pupils enrolled being savers. In the 4th, 6th, 8th, grades and Normal all the pupils are savers. The 4th, 5th, 6th, 8th, grades and high school have purchased more than their quota.

Newark township gained \$1046.25 since March 16th. Among those making the largest gains since the last report: Harrison township, \$480.75; Hanover village, \$251; Appleton, \$200; Licking township, \$208.50; and Etta township, \$207.

RIDS YOU OF VILE CATARRH**

Katarrio Opens up Catarrh Stuffed Nostrils in Three Minutes. Stops Buzzing, Ringing and Singing in Ears and Destroys Deadly Catarrh Germs, Says a Chicago Authority.

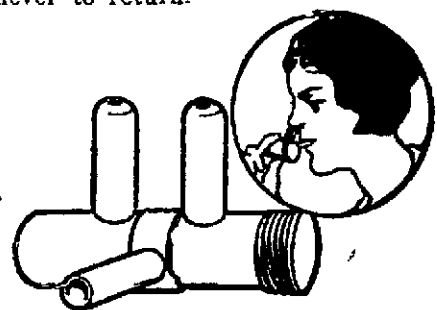

All inflammation in nose, throat, and bronchial tubes rapidly disappears, snuffles cease and you can breathe freely through nose again.

It's about time that someone with brains gave to catarrh sufferers a simple, quick and sure remedy that not only soothes and heals the inflamed catarrh soaked membrane, but also promptly destroys the vicious germs that cause this disgusting disease.

The thousands of intelligent readers who have tried in vain to find something that actually will drive away every trace of loathsome catarrh will be glad to know that Katarrio can now be procured at T. J. Evans who will be pleased to show you how simple it is with Katarrio and the wonderful Blower that goes with it to once and for all conquer catarrh and its stubborn symptoms.

Just notice the picture of the Katarrio Blower—the small single tube at the bottom is placed in the mouth, the two upper tubes go into the nostrils, the large tube contains a tiny sponge and gauze freely saturated with Katarrio.

Now all you have to do is blow gently, and over the entire sore, germ-infested membrane, away down into the lungs will spread the antiseptic, vaporized, germ-killing air of Katarrio reaching every nook, crevice and fold in the membrane as no other remedy can and opening up

infantry fighting. As elsewhere, however, the enemy artillery fire has increased greatly.
On the extreme eastern end of the southern leg of the salient the Germans have been checked somewhat in their advance southward from Chauny. The French still hold a part of the lower forest of Coeury and on Monday the French rear guards inflicted heavy losses on the Germans who advance was hindered greatly by the French resistance. The enemy has not yet reached the line of the Ailette river.
On the rest of the front in France there has been little activity. On the American sectors, northwest of Toul and in Lorraine, there have been patrol actions and artillery fighting. Artillery exchanges continue on the Italian front, but the bombardment is not violent. British troops, who have been stationed along the Plave near Montello have taken over a sector on the Italian mountain front in the region of Asiago.
Man-power and probable government for Ireland are two important questions confronting the British parliament which reassembled today after the Easter recess. In urging the raising of the age-limit for military services, Premier Lloyd George is expected to speak at length on the military situation.

ORGANIZATIONS TO PARADE TO NOTIFY MARSHAL MILLER
Grand Marshal W. C. Miller requests all organizations which have not announced their intention to participate in the parade tomorrow to advise the committee of Commerce not later than 3:30 o'clock Wednesday morning of their desire to take part. This is in order that their position in the line of march may be ascertained. It is necessary in order to avoid confusion in assembling.

Chief of Police Sheridan, Safety Director Pemberton and Captain Hager and Officers Jones and Swinehart raided the house of Cora Parker in 30 Walnut street Monday night about 9:30 o'clock.
They arrested the landlady, Cora Parker, and two inmates, Mrs. B. F. Parker and Elsie King.
The owner of the place was fined \$10 and costs and the other women \$5 and costs which were paid this morning.

CAMP SHERMAN NOTES
(ASSOCIATED PRESS TELEGRAM)
Camp Sherman, Chillicothe, Ohio, April 9.—To accustom Ohio and western Pennsylvania selective service men to conditions they will have to face on the firing line, all supplies and stores at Camp Sherman possibly will be moved after dark, according to an announcement made today. The order comes as a result of Major General Glenn's recent observations in Europe. Through long experience the armies have learned that to move supplies during the day time is sure to bring down an avalanche of fire from the enemy.

Orders have been received from the adjutant general of the army to take steps to prevent all possible discrimination against non-English speaking selectives in the matter of mental tasks.

Four officers of the sanitary corps of the army have arrived here to make a survey of the antenatalment's food situation. Subsistence stores, menus, camp exchanges and other stores of food supply will be investigated by the officers. A detailed study will be made of selected messes and of the instruction of the preparation and economy of food.

Candidates in the officers training school today began the last lap of their training for commissions. Instructors are initiating them in the mysteries of company administration. They are being taught to properly handle the vast amount of paper work necessary to run a military organization.

All of the candidates will be notified between now and Thursday of next week whether they will be recommended for commissions or not. While formal exercises marking the conclusion of the training a week from Saturday have been tentatively planned they have been practically abandoned in the face of the heavy work confronting the candidates. It is probable that addresses by Major General E. F. Glenn and Lieutenant Colonel J. G. Hannah, the latter commanding the school, will be the only ceremonies. Officers here say they have no means of knowing how soon the men will be given commissions.

On charges of having refused to sign a statement to the effect that he did not wish government war risk insurance, Private Ernest Cates of the 317th engineer train, has been found guilty by a general courtmartial and sentenced to four months at hard labor and to forfeit two thirds of his pay during that period.

The second company of the first training battalion was today reported as having been quarantined for scarlet fever.

NEWARK PATENTS.
H. E. Dunlap, patent lawyer of Wheeling, reports the following recent issues of patents by the patent office: W. A. Dorey and H. L. TODAY'S BEAUTY HINT.

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleaned each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense by dissolving a teaspoonful of Canthrox which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh; clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.

HOW TO MAKE A REAL WRINKLE REMOVER.

In these days of cleverly advertised "beautifiers" and "rejuvenators" it is hard for a woman to believe she can make a simple home remedy for the removal of wrinkles which will do her much more good than the average made preparation. There's nothing in the world so effective for erasing or preventing wrinkles, age marks, bagginess of cheeks and chin as a simple and harmless solution made by dissolving an ounce of pure powdered sassafras in a half pint of witch hazel. These ingredients of course can be had at any drug store. Use the mixture daily for a while as a refreshing wash lotion. The quick and satisfactory results will surprise you. Even the first application produces very marked improvement. The wrinkles are less in evidence and the face has a firm, "solid," comfortable feeling. Soon you will look considerably less than your age.—Advertisement.

Manager S. E. Alban has put a very attractive patriotic "trim" in the Arcade window of the Stewart Brothers & Alward Company's store. It represents the broad Atlantic, across which stretches a bridge leading from America to France. Upon the shore of the United States may be seen great stacks of money and the bridge consisting of United States bonds supported by pillars of war savings stamps, leads to the battle front, where floats Old Glory and where may be seen a United States soldier in action. By him rests a shell and in his hands is a rifle. In the background are numerous posters advertising the Third Liberty Loan and picturing the Uncle Sam's need of money. The scheme was cleverly worked out and the window attracts the attention and favorable comment of all who pass.

**THE OLD NATIONAL
PIKE REHABILITATED**

Years ago when war was child's play in comparison to the man's job of today General Braddock realized the importance of an artery of travel through the heart of this big country of ours and set out at once to cut a road. What was once used as a bison trail and later by the Indians was the base of his operations. It was not long before the men had finished what was to be known as "Braddock's Trail."

The United Government saw the necessity of having a good, fast, and ready connection between the crowded east and the big west. The only solution was the completion of the emergency highway that had only penetrated the northwest as far as the state of Pennsylvania. The first quarter of the nineteenth century had not passed before the pike had passed the capital of our own state. In those days labor was cheap and material drew a very low premium. In a very few years one could watch the sun on his evening course light up the way for an endless string of home seekers with schooners, cows, chickens, a few pigs and a good supply of children. For several years this same procession could be seen fading out with the dusk of evening. Pure Yankee blood was flowing west through the great aorta of a nation.

Then the years were few when the roads made of steel rails forced the great pike to close its chapter in the country's history. The National road soon fell into temporary disuse and bad repair. Any one of this generation can easily remember the sad completion it turned toward the casual observer. Its pitiful appeal was heard and interpreted by the present governor of our state of Ohio. The resurrection and reconstruction can not be estimated by the average person who has not the opportunity of seeing each day now what takes its course over the old highway, bringing the wealth of a nation from the vastness of the big west back to the eastern waterfront.

Along the last few months of the year 1917 in a single day auto tags from 14 different states were observed on cars in transit. Since the spring of the present year has ushered in new necessities of freighting and travel, from daylight till dark and often far into the night the old National highway is one continual procession of moving vehicles composed of passenger, freight and transit motors. Within the last thirty days no less than 1000 motor cars and trucks have used this road for transportation, and without a single exception they have been going east.

This all has a meaning. These companies in face of the congestion of the freight traffic of the railroads find it cheaper and more convenient to send their wares on their own wheels to the eastern markets. A long stretch of unbroken good roads minus the miserable little unfinished patches, the pike now has, would be a value without figures running through the heart of the nation as it does; even in the times of peace. We are in the throes of the world's most terrible war, and only at the beginning of collecting resources from an area of 3000 miles in width and attempting the stupendous task of transporting it the same distance over harried waters.

This big union of states will soon need the old pike to send tons of material to the eastern ports. If Uncle Sam would attempt to use it as it now stands, with the beast from the tin tossing shells into Paris he would be stalled in the mud in the main streets of Hebron and Kirkersville. If a boy was to grow weary from hard travel and sleepless nights and sick of bloodshed was to nap at his post as a guard why shoot him of course. But as a state, a county or as towns if we do not hasten the repair of the ruptures in this important artery of travel we snore at our post.

**FORD PLANT ORDERED
CLOSED TO VISITORS**

Detroit, Mich., April 9.—The Ford Motor Company has closed its doors to all visitors. For a number of years the huge Highland Park plant was the mecca for all people coming to Detroit. And due to this fact it was the privilege of the Ford organization to maintain a Courtesy department which furnished schooled guides, who were familiar with all phases of the industry, to anyone and everyone that desired to go through their immense plant. The records of the company show that people from all parts of the world visited the factory. The officials of the company expressed their regret that it was necessary to discontinue this courtesy but as it is a right rule from the government, it is entirely beyond the powers of the Ford Motor Company.

Uncle Jack—"What is your idea of an optimist, Tommy?" Tommy—"Oh, a fellow that can get fun out of going to school."

**COUNTRY SCHOOL CHILDREN HAVE BOUGHT
\$25,936 WORTH OF WAR SAVINGS STAMPS**

Harry Wentz, 210 Union street, is now an agent for war savings stamps. Thrift stamps are now being sold by 750 agents in Licking county.

New members of the Licking County One Thousand Dollar War Savings Society, Miss E. Pearl Keller, of Hebron; J. Fulton Van Voorhis, of Newark.

Supt. E. T. Osborn of the Hebron schools reports that 78 percent of the pupils of Hebron are buying war savings stamps and that the sales in the schools there now amount to \$2667.75 which is nearly \$500 above the year's quota. Prof. Osborn has set a new mark, \$5000 by Oct. 1st. The High school, the Eighth grade (Miss Carrie Hutzel) Sixth grade (Miss Elizabeth T. Brown), Fifth grade (Miss Jeannette Morrison) and Fourth grade were the first to reach their quota. The Sixth and Fourth grades and the Normal school (Miss Marian Mitchell, director) are now in the 100 per cent class, every student in those grades being a buyer of war stamps.

Thrift and War-Savings purchases by Licking county schools amounted to \$25,936.00 on March 29th, being a gain of \$5818.75 since March 16th. At Croton the grammar school of 23 pupils with Perry Case as teacher has purchased \$810.25 which is \$35.22 per pupil.

Hebron schools gained \$804.50 since March 16th, 78 per cent of all the pupils enrolled being savers. In the 4th, 6th, grades and Normal all the pupils are savers. The 4th, 5th, 6th, 8th, grades and high school have purchased more than their quota.

Newark township gained \$1046.25 since March 16th. Among those making the largest gains since the last report: Harrison township, \$480.75; Hanover village, \$251; Appleton, \$200; Licking township, \$208.50; and Etina township, \$207.

RIDS YOU OF VILE CATARRH**

Katarrio Opens up Catarrh Stuffed Nostrils in Three Minutes. Stops Buzzing, Ringing and Singing in Ears and Destroys Deadly Catarrh Germs, Says a Chicago Authority.

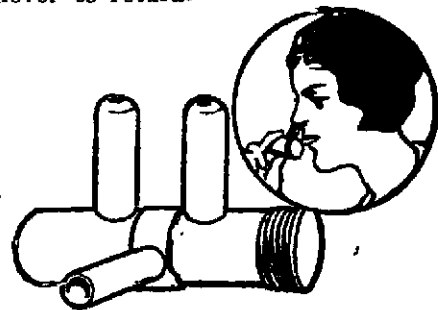

All inflammation in nose, throat and bronchial tubes rapidly disappears, snuffles cease and you can breathe freely through nose again.

It's about time that someone with brains gave to catarrh sufferers a simple, quick and sure remedy that not only soothes and heals the inflamed catarrh soaked membrane, but also promptly destroys the vicious germs that cause this disgusting disease.

The thousands of intelligent readers who have tried in vain to find something that actually will drive away every trace of loathsome catarrh will be glad to know that Katarrio can now be procured at T. J. Evans who will be pleased to show you how simple it is with Katarrio and the wonderful Blower that goes with it to once and for all conquer catarrh and its stubborn symptoms.

Just notice the picture of the Katarrio Blower—the small single tube at the bottom is placed in the mouth, the two upper tubes go into the nostrils, the large tube contains a tiny sponge and gauze freely saturated with Katarrio.

Now all you have to do is blow gently and, over the entire sore, germ-infested membrane, away down into the lungs will spread the antiseptic, vaporized, germ-killing air of Katarrio reaching every nook, crevice and fold in the membrane as no other remedy can and opening up

Condition Improved.
Diminco Martino, an employee of the B. & O. railroad company who was injured yesterday while at work was removed to the Newark Sanitarium in the Citizens' ambulance. He had suffered an injury to his head and was unconscious when taken to the Sanitarium. However, this morning he regained consciousness and his condition is improved.

To Go Back in Service.
William P. Trovinger is rejoicing because he has been assured he can return to the army in the U. S. service. Trovinger who went across with the Rainbow division was forced to undergo an operation in France for the removal of a tumor of the spine. He was returned to a hospital in New York to recuperate, and was later honorably discharged. The operation has been such a success that the examining officer at the Columbus barracks has told him he will be fit to return to the service the middle of May or first of June, and he is rejoicing that he will be able to "go over" again.

Decorate Business Places.
The mayor requests that all places of business hang out flags and decorate tomorrow for the big Liberty Loan campaign.

Removed to Brothers Home.
The Citizens' Undertaking company ambulance removed William M. Grindle to the home of his brother George, 227 Hoover street.

GERMAN GUNS VERY ACTIVE EARLY TODAY

(Continued from Page 1.)
infantry fighting. As elsewhere, however, the enemy artillery fire has increased greatly.

On the extreme eastern end of the southern leg of the salient the Germans have been checked somewhat in their advance southward from Chauny. The French still hold a part of the lower forest of Coucy and on Monday the French rear guards inflicted heavy losses on the Germans whose advance was hindered greatly by the French resistance. The enemy has not yet reached the line of the Ailette river.

On the rest of the front in France there has been little activity. On the American sectors, northwest of Toul and in Lorraine, there have been patrol actions and artillery fighting. Artillery exchanges continue on the Italian front, but the bombardment is not violent. British troops who have been stationed along the Piave near Montello have taken over a sector on the Italian mountain front in the region of Asiago.

Man-power and probable government for Ireland are two important questions confronting the British parliament which reassembled today after the Easter recess. In urging the raising of the age-limit for military services, Premier Lloyd George is expected to speak at length on the military situation.

ORGANIZATIONS TO PARADE TO NOTIFY MARSHAL MILLER

Grand Marshal W. C. Miller requests all organizations which have not announced their intention to participate in the parade tomorrow to advise the Chamber of Commerce no later than 8:30 o'clock Wednesday morning of their desire to take part. This is in order that their position in the line of march may be ascertained. It is necessary in order to avoid confusion in assembling.

HOUSE OF ILL REPUTE RAIDED BY OFFICERS

Chief of Police Sheridan, Safety Director Pemberton and Captain Hager and Officers Jones and Swinehart raided the house of Cora Parker in 36 Walnut street Monday night about 9:30 o'clock.
They arrested the landlady, Cora Parker, and two inmates, Mrs. B. F. Parker and Elsie King.
The owner of the place was fined \$10 and costs and the other two were \$5 and costs which were paid this morning.

CAMP SHERMAN NOTES

(ASSOCIATED PRESS TELEGRAM)
Camp Sherman, Chillicothe, Ohio, April 9.—To accustom Ohio and western Pennsylvania selective service men to conditions they will have to face on the firing line, all supplies and stores at Camp Sherman possibly will be moved after dark, according to an announcement made today. The order comes as a result of Major General Glenn's recent observations in Europe. Through long experience the armies have learned that to move supplies during the day time is sure to bring down an avalanche of fire from the enemy.

Orders have been received from the adjutant general of the army to take steps to prevent all possible discrimination against non-English speaking selectives in the matter of mental tests.

Four officers of the sanitary corps of the army have been ordered to make a survey of the camp's food situation. Subsistence stores, menus, camp exchanges and other stores of food supply will be investigated by the officers. A detailed study will be made of selected messes and of the instruction of the preparation and economy of food.

Candidates in the officers training school today began the last lap of their training for commissions. Instructors are initiating them in the mysteries of company administration. They are being taught to properly handle the vast amount of paper work necessary to run a military organization.

All of the candidates will be notified between now and Thursday of next week whether they will be recommended for commissions or not. While formal exercises marking the conclusion of the training a week from Saturday had been tentatively planned they have been practically abandoned in the face of the heavy work confronting the candidates. It is probable that addresses by Major General E. F. Glenn and Lieutenant Colonel J. G. Hannah, the latter commanding the school, will be the only ceremonies. Officers here say they have no means of knowing how soon the men will be given commissions.

On charges of having refused to sign a statement to the effect that he did not wish government war risk insurance, Private Ernest Cates of the 217th engineer train, has been found guilty by a general courtmartial and sentenced to four months at hard labor and to forfeit two thirds of his pay during that period.

The second company of the first training battalion was today reported as having been quarantined for scarlet fever.

NEWARK PATENTS.
H. E. Dunlap, patent lawyer of Wheeling, reports the following recent issues of patents by the patent office: W. A. Dorey and H. L. TODAY'S BEAUTY HINT.

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo (that we can recommend to our readers) is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of Canthrox which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh; clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.

HOW TO MAKE A REAL WRINKLE REMOVER.

In these days of cleverly advertised "beautifiers" and "rejuvenators" it is hard for a woman to believe she can make a simple home remedy for the removal of wrinkles which will do her much more good than the average made preparation. There's nothing in the world so effective for erasing or preventing wrinkles, as marks, bagginess of cheeks and chin as a simple and harmless solution made by dissolving an ounce of pure powdered sassafras in a half pint of witch hazel. These ingredients of course can be had at any drug store. Use the mixture daily for a while as a refreshing wash lotion. The quick and satisfactory result will surprise you. Even the first application produces very marked improvement. The wrinkles are less in evidence and the face has a firm, "solid," comfortable feeling. Soon you will look considerably less than your age.—Advertisement

HALF HOLIDAY PROCLAMATION

In accordance with the plans for a big holiday celebration on Wednesday, April 10, from 12 o'clock, noon, I, as mayor of Newark, proclaim the afternoon a half holiday, and ask that the business concerns, industries and manufacturing close at noon, and that the citizens, from every walk in life, participate in the celebration.

The "Liberty" Rug Is Displayed in Our Window

This week, it's the finest example of rug weaving we have ever shown in our windows. You can only get an idea of the wonderful weaving and the harmony of colors by seeing this rug, which shows many motifs of noteworthy places, national wonders and objects of national and historical interest, that have marked the life of the nation. In this rug you will find woven in the center the Statue of Liberty; woven around are the Capitol at Washington, Independence Hall, Liberty Bell, Niagara Falls. The interesting arrangement of the border shows the seals of the different states, and also rural scenes depicted in various parts of the country in days gone by. The tones are artistic and the unusual nature of this rug will be a matter of interest to you. DON'T FAIL TO SEE IT IN OUR WINDOW.

No Woman Ought to Wait Longer To Select Her New Spring Suit or Coat

Already we have had many balmy days when it would have been a pleasure for you to appear in your new spring attire. Our present stock contains a brilliant display of new suits and coats and most women will welcome a change from winter garb to the new fashions of spring. It affords wide latitude as to style, material, color and trimming.

We Hope to Have the Pleasure of Showing Them to You This Week

It's interesting to see pictures and read about the new styles, but it's a great deal more interesting and more satisfactory to see the new style garments, to see yourself in them and find out which are most becoming to you.

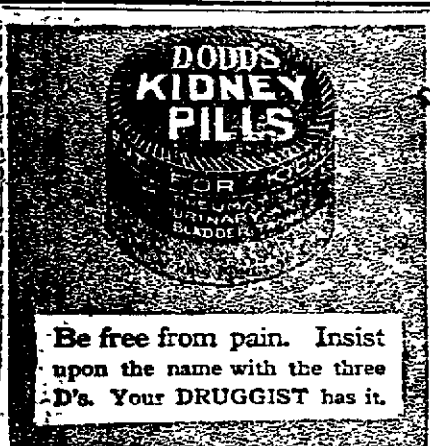

REMEMBER—The finest and most attractive models are shown early in the season.

FLAG RAISING AT CENTRAL STATION TOMORROW MORNING

There will be a flag-raising tomorrow morning at 10 o'clock at the Central fire department station, North Fourth street. The Old Guards will have charge of the exercises and Col. Geo. H. Hamilton will deliver the oration. It is expected that the Buckeye band boys will be present to enhance the occasion with their music and the public is given a cordial invitation to turn out and assist the fire ladies in their patriotic demonstration.

KIRKERSVILLE

(Special to The Advocate) Kirkersville, April 9—Paul Jacobson of Camp Sherman was home over Sunday. Army life must agree with the lad as China does not look the same snap who left here a few months ago. Preparations for the Shakespearean play the Mid Summer Nights Dream is progressing at a fever heat. Miss Mary has been to Columbus and made all arrangements for the costumes and the stage is getting its full share of gay rigging. Milo Chaffin of Columbus was in town Monday. Prof. H. J. Guinsler has rented the home of Perry Raver and will furnish the same for housekeeping at once. Mrs. Guinsler closes her school in a few weeks in Perry county and will join him here at that time. Mr. and Mrs. Silas Smoke of south of town drove a new buggy home from Newark Saturday. The little daughter of Mr. and Mrs. Edward Aumspaugh is very ill at the home of her parents, Mr. and Mrs. Lewis Whitel, near town. Prof. Guinsler was in Hebron, Monday evening. Mr. Chas. West came home from

Jackson Monday where he has been visiting with friends and relatives. Mr. and Mrs. Perry Raver of Reynoldsburg visited with Mrs. Chas. West, over Sunday. Mrs. Della Dennis of Columbus, was the Sunday guest of Mrs. Marguerite Headley, Sunday. Mr. and Mrs. Silas Smoke and daughter Thelma were in the capital city last Friday. These Francis Walker, the wife of Captain Fred was visiting his brother, Sunday. The percentage of Thrift Stamps owned in the schools in Kirk is 78 and 1-2. The High school itself has a percent of 92. The buying Monday was so heavy that the post office ran out of stamps early in the afternoon. Mr. Albert Headley has removed his household goods to Hebron. Conductor Heller of the O. E. was in town on business, Monday.

CADET RYAN IS HERE ON FURLOUGH

Cadet James F. Ryan, from the Ft. Worth, Tex., aviation field, is the guest of his uncle, Mr. Michael Kieley, in 49 Vine street. Cadet Ryan, whose home is in Brooklyn, N. Y., is enroute to his home on a furlough, having been injured in a flight when he fell a great distance with his machine. The machine was demolished and he was badly injured, and has been in the hospital for the past two months. Cadet Ryan learned the ground work for the aviation course at Princeton university, at Princeton, N. J., and for the actual flying work was sent to Ft. Worth. He has been very successful and has made many flights. He will return to the field to work for his commission.

TO ABOLISH GERMAN

Toledo, April 9.—The boards of education of Postoria and Napoleon voted yesterday to abolish the German language courses in the schools.

TONIGHT IS FIRST ANNIVERSARY OF BIG PATRIOTIC MEETING

A year ago tonight the big patriotic demonstration was held in the former tabernacle building south of West Main street. The big rally filled the building to overflowing and hundreds were turned away. The speakers for the occasion were Mayor R. C. Blagoe, who delivered the address of welcome, F. L. Beggs presided, and Father E. M. O'Boylan gave a splendid prayer, and talks teeming with enthusiasm and fervor were made by Capt. C. W. Montgomery, Ray Martin, Phil Smythe and Rev. L. C. Sparks.

SNOW FLURRIES DURING STORM OF LAST NIGHT

Dr-r-r. And the north wind blew, and all those Easter togs we thought so fine and very much appropo, just last night seemed miserably insufficient last night.

But anyway it was cold and the thermometer dropped like the hot cury had been greased and "Pop" Winter just to show us that spring had pushed him entirely out of existence, got nasty and snow flurries added to the discomfort.

What damage if any the cold spell has done the prospective fruit and garden crops cannot be estimated now.

NEXT QUOTA OF SELECTS LEAVE FRIDAY, APR. 26

Ohio is called upon to furnish 10,302 men for the first call of the second draft of men in class one. The first call is for 8442 white men to complete the enlistment for Camp Sherman, 1329 white men to complete the enlistment at Camp Meade, Annapolis Junction, Md., and 531 colored men to complete the enlistment at Camp Sherman. These men must be physically qualified for general service and the movement will be during a five-day period beginning April 26. Newark will send a quota of 47.

GRANVILLE WILL EXCEED QUOTA IN THE LIBERTY LOAN

(Special to The Advocate) Granville, April 9.—The first day of the great drive for the Third Liberty Loan Bond which carried many of the smaller towns over the quota, resulted in \$15,000 for Granville, whose quota this year is \$20,000, but who expects at least \$30,000 before the campaign is ended. These facts were given in a crisp four-minute talk by H. W. Deming, president of the Greater Granville Association at the Opera House last evening, between acts of a Marguerite Clark "Sub-Deb" story. Rev. A. B. Hoell, who has resided for many years in Cuba, was the principal speaker at the meeting of the Travelers' club Monday afternoon, where he gave a delightful and interesting talk on "Latin American Problems and Possibilities," and then devoted half an hour to an intelligent "questionaire" in which he answered all the queries left over from many of the year's papers. His address was preceded by the regular "Current Events" given by Mrs. August Odebrecht, and a well prepared paper on "Our Latin American Policy" by John W. Deming. The men's work received attention in the reading of a bit of propaganda by Hopkins of the educational department from the Greater Women's Liberty Loan headquarters committee, by Mrs. A. K. Herrick. Next year's business was then announced and topics chosen. Next week's meeting, which features "Latin American Music" will close the year's delightful and profitable work. Sigma Chi fraternity had as week-end guests Robert McCann and Henry H. Deming, who were in the service last spring, has been transferred from Camp Sheridan, Ala. On Sunday, the chapter entertained about a dozen Sigs from O. S. at dinner. Miss Margaret Lewis of Delaware, who is visiting in Granville and Mrs. E. Case attended a meeting in the Chamber of Commerce, Newark, yesterday, called by Mrs. Homer Davis in the interests of a Newark War Kitchen. Miss James of Piqua gave a most interesting account of such an enterprise recently held in that city with glowing results. The Newark women are full of enthusiasm and the discussion which followed from the speaker showed that they also have initiative. The success of the kitchen under such auspices is a foregone conclusion. The speaker's informal talks indicated that women everywhere need to be roused to the vital necessity of personal, heroic obedience to a good ruler, irrespective of their neighbor's laxity. Miss Helen Longworth of Lima is the house guest of Mrs. Theodore Johnson for a few days. At a meeting of the executive committee of the Granville unit of the Red Cross yesterday afternoon there was a careful auditing of accounts, and among other business transacted it was decided to observe the anniversary of the local unit on May 17th by holding a meeting of general interest to the community. Prof. August Odebrecht, who has spent five weeks at Camp Sherman teaching French to the soldiers, has returned to his classroom in the school. The funeral of Mrs. W. H. Smoke, who died on Sunday at the Newark hospital, took place at 2 o'clock yesterday afternoon at the family residence in Elm street this afternoon at 2 o'clock. Mr. Smoke leaves a widow, two sons and two daughters, all of whom were present to mourn his loss. Interment was made in Maple Grove cemetery.

GIVEN REPRIEVE PASHA REVEALS TREASON PLOTS

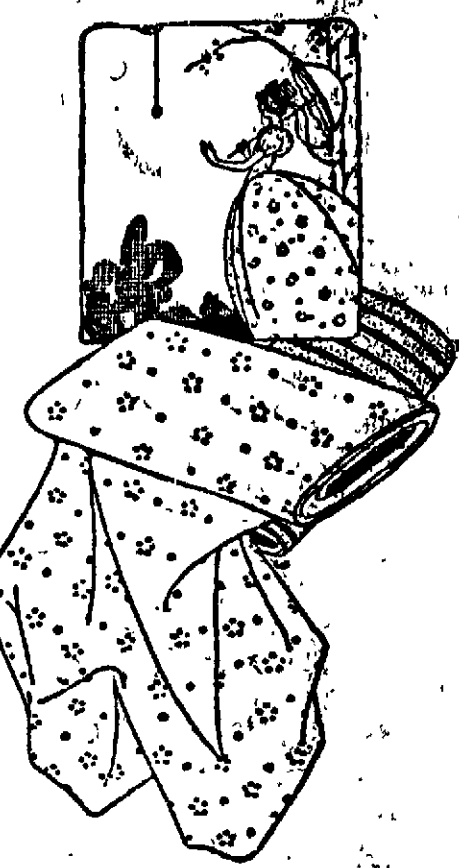

Paris, April 9.—Revelations of the highest importance are said by the Matin to have been made by Bolo Pasha, under sentence of death for treason, to whom a reprieve was granted yesterday. The newspaper asserts Bolo has made only a beginning of what he has to say and that another important case in connection with the German propaganda in France is about to develop.

EXTEND PAYMENTS ON MONTHLY BILLS

Owing to the fact that Wednesday is a half holiday and that the final payment on gas and electric light and telephone bills comes due on that day, April 10, the companies have granted an extension. These offices will close on the afternoon of Wednesday the 10th, so the payments can be made on the 11th of this month.
